Course Type:

Classroom Learning: Hands-on

Course Prerequisites:

None

Course Description:

The MicroStation Connect Essentials course is designed for the new MicroStation user and builds a solid foundation in the concepts, tools and features found in the MicroStation drawing environment. In this hands-on course, students are using MicroStation in the first hour of class. Starting with setting up a drawing and concluding with plotting. Students walk through a typical workflow using the tools and features of the latest version of MicroStation. Interspersed throughout are real-world design problems solved using the concepts learned to that point in the course.
